Thomas Fuller
Programme and Project Partners (PPP)
PPP Programme Delivery – Project Manger

"I have had the privilege to be involved in multiple schemes undertaken by the Centre over the past 2 years. These have included Elements, ProjX and Your Community Projects.

My engagement with the Centre has been to provide Project Management briefings and technical support.

As a young professional, it has been fantastic to be able to share my own career journey to date as well as providing insight into the world of work to the schools and youth groups. I have taken immense pride in being given the platform to share my experiences and hopefully I have inspired some to seek future opportunities within the sector.

All staff at the Centre have made these volunteering opportunities an enjoyable and rewarding experience for myself and I hope to continue my support for years to come."
