

# BRIGHT STARS

*“The prize we got was actually the one I hoped for more than anything. The little girl who designed the logo is someone who lacks self belief and confidence. She doesn’t believe in her own abilities and would have naturally voted someone else’s design over her own if she had got the chance. This was the most lovely news to be able to give her and warmed the hearts of staff too. To see her happiness and the pride of her peers was amazing”*
