Sophie Baillie, Leinia Rooney, Harry Basnett Project Management Apprentices & Cyber Security Apprentice

After attending a Contract to Cube it training day ran by Primary Business Partnership. Sophie, Leinia & Harry wanted to put their learning into practice by signing up to run a session at St Beghs Primary School in Whitehaven. **"Upon completing the training, we discovered how engaging and enjoyable it could be to get involved."** They developed leadership abilities, boosted their confidence, and explored their creativity. **"We find working with younger children rewarding and aim to gain valuable experience for our future endeavors."**

Thinking about the activity and how it impacts the pupils that take part, Sophie said:

"We believe we influenced the children in helping them find fun ways of doing maths and hopefully made maths sound more exciting."

Encouraging their colleagues to sign up to be a volunteer for future events they all said;

"Absolutely loved doing this and would really encourage more volunteers to get involved."
